

SSiP Partnership Overview 2026

Swiss Space & Innovation Platform

Eliminating walls. Building bridges. Opening doors to Swiss and European innovation.

About SSiP

SSiP is a neutral, Switzerland-based initiative connecting global organizations, universities, and research institutes to accelerate innovation across **space, defense, and deep-tech**. Rooted in Swiss values of **precision, trust, and long-term collaboration**, SSiP helps partners move from **concept** → **prototype** → **market**, ensuring governance, compliance, and measurable impact.

Why Partner with SSiP

- Direct access to **Swiss & European innovation markets**
- **Curated networking** with academia & industry
- **Workshops & hackathons** based on real use cases
- **Pilot development** - from idea to validated prototype
- **Visibility & co-branding** across events & media
- **Swiss-grade governance** – IP, data sovereignty, compliance

Your bridge to the Swiss and European innovation ecosystem.

Long-Term Framework

Partnerships are governed by a **Memorandum of Understanding (MoU)** and a **Master Service Agreement (MSA)** with a **minimum duration of 4–5 years, automatically renewable** unless terminated with **90-day written notice**.

We don't build short-term projects - we build long-term bridges.

Partnership Tiers (annual fee)
